

PAST PRESERVERS SUBMISSION POLICY

Past Preservers wishes to thank all those kind enough to contact us with series proposals, programme concepts and research material. Past Preservers receives a large number of suggestions throughout the year. Quite often there are proposals that share certain characteristics or ideas in common. In order to avoid any misunderstanding we feel we can only receive and evaluate material in good faith if it is submitted with the understanding that Past Preservers must be the sole judge in determining the priority and originality of the material

It is our policy to require the signing of a submission agreement before considering any materials or suggestions.

Please sign and return the submission agreement with your proposal via the contact details on the Past Preservers Ideas Factory page.
